

# Tops and Bottoms Trifold

**Directions:** Create your own Tops and Bottoms Trifold by folding the two ends of a piece of paper into the center of it with the ends lining up in the middle.

Label the top flap “TOPS” and label the bottom flap “BOTTOMS.”

Open up the flaps of the trifold and draw a clear line down the center horizontally.

Using what you learned from the story, draw items below the line that are grown in the ground and draw items above the line that are grown above ground. Color in each item as desired.
