

Farm Friday Fun with Arizona Agriculture Classroom Contests

Contest #2 (Due March 1st)

This contest is all about CATTLE! Arizona is home to over 1 million head of cattle. Our ranchers care for beef cattle that not only provide us with all the delicious and nutritious beef products we consume, but also the many by-products that we use each day. Our dairymen and women provide the best care for their cattle as the cows work hard to produce all the delicious and nutritious milk we enjoy.

For this contest, classrooms can either produce a video or book describing:

- Option #1 The many things we get from cattle
- Option #2 How ranchers/dairymen pamper their cattle

Books and videos should be saved as **School.Teacher.Grade** and submitted through [HERE](#). Books can be done in a variety of ways. Use your imagination! Maybe you can create a digital book with your students. Perhaps your students each complete a page of the book with their answer to one of the above options. You can then compile all student sheets, scan as a single document, and upload as a pdf.

*By submitting a video or book you are giving Arizona Farm Bureau AITC permission to use all included photos and images on their social media platforms.

Remember, the winning classroom will receive a \$200 Amazon Gift Card. The 2nd place classroom will receive a \$100 Amazon Gift Card. The 3rd place classroom will receive a \$50 Amazon Gift Card.

Prizes are underwritten by the Arizona Farm and Ranch Experience. We Thank them for their support!
